

**IN 2 MINUTES
YOU WILL BE
VRELAXING!**

VR-goggles button functions

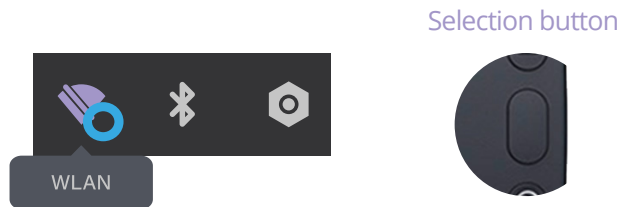

STEP 1

Start the VR goggles by pressing the power button for 3 seconds. This button is located on the bottom of the VR goggles on the right side.

STEP 3

To receive updates and new content, you must connect to the Internet. Move the dot  with your head to the Wi-Fi icon (WLAN) at the bottom of the menu bar.

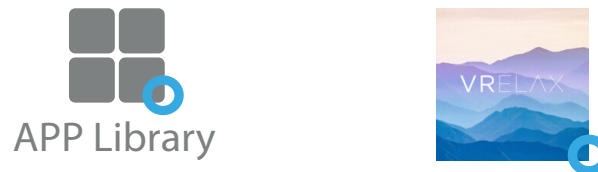

Choose your network by pressing the oval selection button (right side of VR glasses). When connected, press the PICO button. 

STEP 2

You will now see a message. Press the PICO button  (right side of VR glasses) to continue.

STEP 4

Move the dot  with your head towards 'APP Library'  and simultaneously press the oval selection button (right side of VR glasses). Next, select the VRelax app. Follow the instructions and enter the user code. When you exit and restart the app, the app will ask you to enter your user code again.

You can use the app offline for 7 days. After that the app will ask you to connect to the internet again.

TIPS

Make sure that direct sunlight **never** falls on the lenses. This will cause immediate damage and is not covered under warranty.

Is the horizon wrong? You can reset the viewing direction by pressing the PICO button  (right side) for 2 seconds.

When you're done, you can reconnect the VR goggles to the charger.

Scan the QR code with your phone's camera for instructional videos and downloads.
